About this Project

Crosta Collection ODYSSEY introduces its first collection of facade and Crusta meaning Crust. Signifies Surface or Skin). Developed in-house, granite, and is manufactured with the help of CNC milling and water-jet. It has been designed, keeping in mind the dynamic play of shadows on stone. This collection helps in bringing out the beauty of the stone dimensionality and texture. Designer: Ruchika Grover Uses: Interior and Exterior Technical specifications: 20mm Recommended Installation procedure: Dry cladding directly on concrete wall. Alternatively anchorage system with aluminum tracks can also be used. The word kin?tikos (Kinesis) meaning motion. With the Kinetic Collection, the stone appears to be in motion. Each pattern in the collection appears to be moving, creating a dynamic effect. The play of shadow on stone, coupled with an appearance of movement, creates a collection of one-of-a-kind surfaces. Odyssey explores the concept of stone in motion and adds life to the Natural Stone. The panels can be a

mural or a feature wall. Designer: Ruchika Grover Uses: Interior and Exterior effect on wall Recommended Installation procedure: Dry cladding with fasteners. Alternatively anchorage system with aluminum tracks can also add a completely new dimension, quite literally to the jaali work. Inspired by the Nervous system of leaves, Natural fossils and Architectural forms, the overlay/inlay with Shellstone/Gemstones and semi-precious metals. The façade coverings, exterior/interior and can be customized to suit specific Natural Stones Technical specification: CNC milled + Inlay
